THROUGH STORIES OF THE ISLAND

.....

Nestled within the landscape of Tinos, Strokes of Tinos unfolds as two single-story subterranean cave houses, designed to embody the sweeping contours of the island's terrain.

Blending harmoniously with the terrain's natural fabric, the architecture unites traditional stone and concrete in a timeless harmony of texture and form. The villa's pivoting geometry embraces the natural topography with flowing lines that softly recede into the gentle landscape.

Each residence features its own private courtyard and dedicated swimming pool area, offering exclusivity and comfort. Each room captures uninterrupted views of the Aegean Sea, creating a seamless connection between land and sea.

Strokes of Tinos embodies the essence of authentic island living, where architecture rests lightly upon the earth and invites guests into a place of untouched Aegean beauty.
